

KARMA

*Karma 5000
Reclining
Wheelchair*

The KM5000 standard lightweight self-propelling recliner is a highly versatile folding wheelchair with an adjustable backrest that allows the carer to continuously adjust the angle from sitting at 90-degrees to a more relaxed 180-degrees making it a great option for stroke patients, the elderly and those recovering from accidents or surgery.

STANDARD FEATURES

1. Reclining backrest
2. Headrest with movable cushion to support head
3. Quick-release, removable rear wheels for ease of storing
4. Fully removable full length armrests, to allow for easy transfers
5. High mounted, push to lock brakes
6. Elevating swingaway legrests with calf pad
7. Reinforced cross bracing - strong but easily folded
8. Multiple-position rear wheels and various castor mounts to optimise centre of gravity and seat-to-floor height adjustments
9. Pump and tool kit for ongoing standard maintenance
